

## **BULK MULCH DESCRIPTIONS**

*(coverage 100-150 sq.ft. per yard @ 2" deep)*

### **NON-DYED HARDWOOD SHREDDED MULCH**

- **Economy Hardwood**- Natural Economy Mulch is a locally produced, all-natural, aged mulch made from the matter of whole trees that provides optimal biological benefits to your Chicago landscape. Dark color and easy to spread.

### **DYED MULCHES**

- **Designer Shades Brown**-dyed mulch has all the benefits of mulch, including weed prevention and moisture retention. Colored mulches are dyed using a carbon based colorant, making it safe for the environment, plants, people, and pets. The dye used to color the mulch offers UV protection to the soil. The UV-resistant mulch is more durable than regular mulch and typically lasts longer.
- **Designer Shades Red**- dyed mulch has all the benefits of mulch, including weed prevention and moisture retention. Colored mulches are dyed using a carbon based colorant, making it safe for the environment, plants, people, and pets. The dye used to color the mulch offers UV protection to the soil. The UV-resistant mulch is more durable than regular mulch and typically lasts longer.
- **Chocolate Brown**-Dyed Chocolate Brown Mulch is double ground then dyed using a vegetable oil and water-based pet and plant friendly dye. This mulch is perfect for customers who want to add a dark brown (the color of a chocolate bar) color to their landscaping. Our dyed mulches will hold their color for a long time are made with hardwood mulch not pallet wood.

### **BARK HARDWOOD MULCHES**

- **Blended Bark Hardwood**-A 50/50 PRE-BLEND of the Premium Hardwood Bark and the natural Economy Hardwood Mulch.
- **Premium Bark Hardwood**-Premium Hardwood Bark Mulch is premium grade bark mulch, double processed and screened for size. This plant friendly, bark material is produced mostly from red and white oak and has minimal wood fiber.
- **Premium Fines Bark Hardwood**-A fine textured mulch that retains moisture, moderates soil temperature, reduces weed growth and prevents frost heaving. Hardwood Bark Fines Mulch is our highest quality mulch that presents a softer look and adds beauty to the landscape all season long. Lightweight and easy to handle. Triple processed to create an appealing fine textured mulch.
