

This November, Illinois voters will have the chance to update our state's constitution to allow lower tax rates for low and moderate incomes and higher tax rates for the wealthiest among us.

Right now, taxes in Illinois fall too heavily on working-class families to the benefit of the wealthy, while still not providing enough revenue for basic services. This has pushed up property taxes and forced harmful cuts to education, health care, infrastructure and public safety.

With this constitutional amendment, we will be able to ensure the wealthy in Illinois pay their fair share of taxes, while keeping taxes the same or even lowering them for 97% of residents. Passing the fair tax will help Illinois balance the budget, and invest in health care and education, without raising middle-class taxes.

Your union encourages you to vote yes on the fair tax amendment on the ballot this November.

VOTE 'YES!'
ON THE
FAIR TAX AMENDMENT
