<https://www.facebook.com/notes/essential-oils-for-horses/emergency-kit-for-horses/559350340758758/>

Emergency Kit

Contents:

1. Doterra On Guard oil
2. Doterra Oregano oil

3. **Doterra DigestZen oil**
4. **Doterra AromaTouch oil**
5. **Doterra Lemon oil**
6. **5 Gallon Clean Bucket**
7. **Small Clean Bucket**
8. **24 oz. Spray Bottle**
9. **White Cotton Glove**
10. **Syringe**

On Guard- The oils in this blend have been studied for their strong abilities to kill harmful bacteria, mold, and viruses. This Blend can be diffused into the air or used to clean and purify surfaces.

1. **Stalls:** Use a 24oz. spray bottle filled with water and add 5 drops. Spray all possible contaminated areas.
2. **Buckets:** Use a 24oz. spray bottle filled with water and add 5 drops. Spray bucket and wipe clean, than rinse and allow to dry.
3. **Trailers:** Use a 24oz. spray bottle filled with water and add 5 drops. Spray all contaminated areas.
4. **Viral Infections:** Put 3-4 drops in your horses feed or in a syringe with water and squirt in mouth. Continue treatment until all symptoms are gone.
5. **Bathing:** Using OnGuard foaming wash on your horse helps to boost their immune system and gives you a health clean coat without chemicals.

Oregano- This oil is Antibacterial, antifungal, antiparasitic, antiseptic to the respiratory system, antiviral, and immune stimulant.

1. **Stalls:** Use a 24oz. spray bottle filled with water and add 5 drops. Spray all possible contaminated areas.
2. **Trailer:** Use a 24 oz. spray bottle filled with water and add 5 drops. Spray all possible contaminated areas.
3. **Feet:** Use on Trush and White Line Disease. Mix 1-2 drops with coconut oil and put directly on affected areas.
4. **Skin:** Not Advised for use on skin unless diluted with fractioned coconut oil.

DigestZen: This blend may be used for improving digestive function. The oils in this blend have been studied for their abilities in balancing the digestive system and in soothing many of that systems' ailments.

1. **Colic:** Put 3-4 drops in a syringe with water and squirt in mouth. Also, rub over flank and stomach area. Repeat every 5 to 10 minutes until symptoms are gone.
2. **Gas:** Put 3-4 drops in a syringe with water and squirt in mouth.
3. **Ulcers:** Add 1 drop in horses feed twice daily.
4. **Worming:** Add 1 drop in horses feed twice daily until worms are gone.

AromaTouch: The oils in this blend were selected specifically for their abilities to relax, calm, and relieve the tension of muscles, to soothe irritated tissue, and to increase circulation. The Aroma Touch massage blend has an anti-inflammatory effect on soft tissue and enhances all aspects of massage.

1. **Muscles:** Use a small bucket with @ 1/2 gallon of water, 5 drops of oil and a cotton glove. Allow glove to soak in the water and rub over affected areas liberally. Reload glove frequently.
2. **Respiratory:** Hold open bottle under horses nostrils and allow them to smell deeply. Rub 1-2 drops on the horses nose for prolonged aid.
3. **Calming:** Hold open bottle under horses nostrils and allow them to smell deeply. Rub 1-2 drops on the horses nose for prolonged aid. Rub 1-2 drops on the horses poll.
4. **Cooling:** Use a small bucket with @ 1/2 gallon of water, 5 drops of oil and a cotton glove. Allow glove to soak in the water and rub over affected areas liberally. Reload glove frequently.
5. **Colic:** Use a small bucket with @ 1/2 gallon of water, 5 drops of oil and a cotton glove. Allow glove to soak in the water and rub over stomach areas liberally. Reload glove frequently.

Lemon: This oil is an antiseptic, antifungal, antioxidant, antiviral, and astringent.

1. **Bad Water:** Put 3-5 drops of oil in a five gallon bucket of water, allow horse to drink.

2. **Urinary Tract Infection:** Put 3-5 drops of oil in a five gallon bucket of water, allow horse to drink. Continue until symptoms are gone.
3. **Kidney Functions:** Put 3-5 drops of oil in a five gallon bucket of water, allow horse to drink.
